

# To Plant Trees For Danville Men Who Died During War

## Kiwanis to Mark Each Tree at Memorial Mansion Fol- lowing Armistice Day Ceremony.

One of the features of the celebration of Armistice day on November 11 will be the planting of sugar maple trees by the Danville Kiwanis, one for each Danville man who died in battle or from illness contracted while in the service. Plans for this event were outlined today by C. T. Eldridge, chairman of a committee which has in hand arrangements for the memorializing of the soldier dead. It is proposed at 3 o'clock in the afternoon to have this special ceremony at the Memorial park where 23 trees of uniform size will be planted, each one at a later date to have the name of the soldier for whom it is planted.

It is proposed to plant the trees at an even distance around the quadrangle, that is to say between the sidewalks and the Memorial property on all four sides. The trees thereafter will be maintained and properly cared for by the city authorities who have charge of the Memorial property.

Mr. Eldridge in submitting the list of names for whom the trees will be planted emphasized the desire of the Kiwanis not to overlook any man who died and he asked that any person scanning the appended list and finding that a name has been omitted, communicate with him at once in order that additional trees may be secured. While efforts have been made to not miss any name, it is possible that there may be some oversight not apparent at the present time and the organization is extremely anxious to have the roster full and complete. The list of men in whose name trees will be planted is as follows:

Matthew Chatham, Andrew J. Collins, Vester Hall, Walter E. Hundley, Samuel O. Jones, Mitchell Lloyd, Ollie Mitchell, James F. Odum, H. C. Medlin, Campbell Berkeley, Emmett Lea, Ballah, Pruitt, Nelson, Mitchell, Callie Alexander, Lester, J. R. Routhizer, Norburt W. O. Strange, J. S. White, Dean Orgain, Lottie F. Muscoe, Turner, Robert L. Clark, and Edward Wiles.

Johnson commander of the Danville post, American Legion are at work preparing for the celebration which promises to be an elaborate one.

# Minister Preaches Defense Sermon

## Georgie Pastor on Trial for Murder Says Women of Today Are Causing Down- fall of Men.

(Associated Press Leased Wire.) STATESBORO, Ga., Oct. 31.—When the Rev. Elliott Padrick on trial here charged with wife murder and his mother-in-law, Mrs. M. B. Dickinson, took the stand in his behalf today, his first act was to lead the court room in prayer after which he preached a sermon on "The Fall of Man."

During the presentation of his statement Padrick became so excited that it was necessary for one of his attorneys to call a halt and when told to sit down the young minister walked deliberately to the rear cooler, drank a glass of water and returned to his attorney's table where he sat down, closed his eyes and seemed to drop to sleep.

In his prayer he asked for divine guidance in the future of the church and the people of the town.

"The women of today," he said in his sermon, "are causing the downfall of men enticing them by dress and playing to their through appeal. It is difficult," he said, "for a minister to enter the gospel because of the temptations of the modern woman."

The dramatic part of the defense sermon was reached when he singled out the father of his bride, pointed at him and said, "You are responsible for my marrying your daughter."

He told the jury that Mr. Dickinson had insisted on the wedding. He told of jealousy in his mother-in-law whom he admits he killed. "She often beat her daughter because Willie Mae was admired by other men when she went down town," he said. The prosecution later put witnesses on the stand in an effort to show his sanity.

## Tobacco Prices Here Take Jump

A distinct upward trend of prices on Danville tobacco market was observed today in the auction houses where sales were expected to last throughout the day. While the offerings on hand were not as heavy as some days recently, it was expected that the sales would last until night-fall and that it would be necessary to "double up" towards the end of the day in order to dispose of the last of some of the larger floors which have second sales today. The price reaction was marked and generally commented on all grades being appreciably higher.

# Team-Mates Tell Of Game Which Ended Fatally

The funeral of Eugene, Francangeli of South Boston, better known there as Eugene Frank, was conducted there yesterday afternoon with the honors of the South Boston military company of which he was a member. Interment was made in Oak Ridge cemetery.

A different version of the event leading to the young man's sudden unconsciousness during the game played at Chatham against the Chatham Training School on Saturday was secured today. The impression gained from members of the team is that he did not receive any injury from rough play during the game. He did not make complaint of feeling unwell to other players on the afternoon of the game and other South Boston men who witnessed the game declare that he was not injured in play prior to his collapse. Onlookers feel sure that he was not tackled nor was he in the last two plays before his sudden collapse because it is said that were watching him to see if the ball was passed to him, knowing his irresistible line plunging ability.

The following story is told by one of the South Boston players: "We had only played three downs in the first quarter of the last half, when Frankie suddenly doubled up and fell to the ground. Thinking that he had merely fainted we bathed his face with cold water while doing this, however, he went into convulsions. After he had quieted someone asked him what was the matter and for the first time he showed signs of life and muttered, 'I'm all right,' twice in succession.

"He lapsed into unconsciousness almost instantly and was then removed from the field where he received the attention of a doctor. After the game we inquired how he was and was told that he had not yet regained consciousness but was resting easier. Thinking that he would soon be all right we went to supper. After eating, we chose a man to stay with him and all of us left him in the care of four, left for home. Dr. Anderson came again about nine o'clock and after examining him informed us that if we could, to get him to a hospital as he was likely to die. We made arrangements with a doctor who accompanied him to the hospital and left Chatham about 10:05 p. m. Dr. Julian Robertson met us at the General Hospital and after examining the patient and consulting with the accompanying doctor, he informed us that he thought that there was a clot on the brain, possibly caused by intense excitement. Very soon after this his brother, arrived and leaving him in the care, we drove back to South Boston.

"Frankie was a favorite with all the South Boston boys and will be greatly missed by them. He was as clean and upright as one would wish to see. To know him was to like him."

# Firemen Enjoy Their Wireless Given By Public

Firemen at the Patton street station are getting a good deal of enjoyment out of the wireless receiving set which was purchased several months ago on money which was subscribed by citizens who realized that their long evenings within reach of the fire gong are often tedious and unrelieved by any form of entertainment.

During the summer months when stasis interference was high, the receiving set was not used to any extent but with the advent of cooler weather the firemen who have become experts in handling the equipment are enjoying educational addresses, music and other forms of musical entertainment which are broadcast nightly from the increasing number of stations throughout the country. There are sufficient headpieces for all of the men at the station and every evening after supper they can be found sitting near the stove enjoying the various programmes.

Distant points have been reached by the firemen, a programme broadcast at Iowa having been heard recently. The Pittsburgh and the Schenectady plants have been heard nightly from New York, and Atlanta, Ga., have been reached. The multiplicity of broadcasting stations is becoming something of a problem and the congestion on the ether waves is beginning to suggest a solution.

# Annual Vacation For Chain Gang

With the city's street work stopped for the year and the demand for crushed stone having virtually ceased, the city engineer is closing down the rock quarry today for the winter, thereby giving the chain gang its annual vacation. The men who have been hewing the rock on the city farm will no longer have to suffer from the cold in the morning and expiate their offences by manual labor but will be kept in jail.

While the demand for Danville stone has been high it would not pay the city to try to compete with commercial quarries because of the expense in hauling the stone to the railway and transferring it to the railway cars.

The rock quarry has proved a profitable business for the city during the past summer with a considerable demand for the material in various quarters of the city—principally the construction company which paved the city streets during the summer.

# Announcement Will Be Made This Week

RICHMOND, Oct. 30.—Jr. Oscar Lee, Oregon member of the Virginia Division of the American Legion, Colonel Edward E. Goodwyn, state commander of the Legion, is expected to make an announcement of the clearing of the city of the position within a day or two. The position was vacated last month when W. L. Price resigned. The state adjutant's headquarters are maintained here.

# WOMAN BURIED ALIVE

Mrs. Hazel Burns, whose badly beaten body was found in a shallow grave in a woods near Painesville, O., recently, was buried alive after being beaten brutally over the head with a pistol, say medical authorities. Inset is her husband, Henry J. Burns, arrested on charge of murdering his wife, after he was seen leaving the wood hurriedly just before the body was found.

# Mrs. Gibson's Past Now In Limelight

## New Brunswick Insists That Matters Not, But That She Witnessed Dual Mur- der.

(Associated Press Leased Wire.) NEW BRUNSWICK, Oct. 31.—The credibility of Mrs. Jane Gibson, who says she saw the Hall-Mills murders, was subjected to criticism today. Authorities continued their inquiry into her past hearing instead of being the widow of a clergyman, she is the wife of W. H. Easton who works in New Brunswick, and who drives to and from her farm in a car. Mrs. Gibson insisted that the reports are untrue. She denied that she is the Mrs. Gibson, railway worker, died in Kentucky.

Easton said he had "nothing to say" when asked if she was his wife. "It's an amazing story," he said, commenting on her story of the murder. "She has a brilliant mind."

"You tell me the officials are investigating the story of my life," Mrs. Gibson said. "Well, I don't care. I know I am here in New Brunswick, and I witness the murder of Dr. Hall and Mrs. Mills. What difference does it make if I had a past?"

Special deputy Attorney General Mott has made no move to present her story to the grand jury. He said he found nothing that would discredit her story.

# New Italian Cabinet Sworn

## Governor Allen Attacks Gigotry

(Associated Press Leased Wire.) GREAT BRITAIN, Oct. 31.—Governor H. J. Allen, of Kansas, in an election address continued his attack on the Ku Klux Klan last night with a plea for tranquility and tolerance so that the state by spared again.

His speech was a denunciation of religious bigotry and community hatred and he denounced certain types of Catholics and members of the Klan in the same breath. "You are both to blame," he said.

"You Catholics who say 'I don't vote for a man not a Catholic, I am going to put my political activities behind religion'—You ought to be ashamed and you men who joined this Klan and say 'there is an order that exists for the protection of white supremacy and to save us from the Catholic church.' You ought to be ashamed—honestly you ought to be ashamed."

He said he did not like the Klan attitude on community question nor the manner the activities are carried out. I do not mean to be personal he said, I am not a Catholic, I am a Methodist he said.

# America Declines Europe's Offer

## N. C. Methodist Conference To Open Tomorrow

(Associated Press Leased Wire.) HENDERSON, N. C., Oct. 31.—Delegates were arriving here on every train today to attend the ninety-seventh annual session of the North Carolina Methodist Protestant conference which will convene here at ten o'clock tomorrow morning and continue through Monday. Among the principal business of interest to be transacted will be the election of a successor to Dr. Arthur Robert Andrews, of Greensboro as president of the conference who has completed service of five years in that capacity which it is limited fixed by church rules. This, with the election of other officers will take place tomorrow afternoon.

Plans will also be discussed for the completion of the new Methodist Protestant College now building at High Point. Reports of the work of the past year; discussions of the missionary programme of the church and the work of the young people will have prominent place on the five day programme. The conference will appoint stations stationing the various pastors for the coming year. The conference embraces the whole of North Carolina and parts of Virginia and South Carolina with an official membership of about 75 preachers and 150 lay delegates.

# Boat Runs Without Motor Using Fuel

PARIS, Oct. 30.—A novel application of wind power to propel a boat startled the members of the French Academy of Science last week. It made some of the more conservative ones doubt their eyes when they saw motion pictures of a boat, without sails and without a fuel consuming motor, going at top speed against the wind. M. Breton, former minister of agriculture, was the sponsor for the invention of the air turbine. The turbine was mounted on a motor boat with the turbine geared to the propeller. He displayed motion pictures of a trip on the Seine. The air propelled boat when speedily at the will of the pilot and maneuvered with the same facility as if equipped with the customary power plant.

# Italy's Ambassador In France Resigns

(Associated Press Leased Wire.) PARIS, Oct. 31.—Count Se Forza has telegraphed his resignation as Italian ambassador at Paris to Premier Mussolini. He explains that the government should have men in accord with the government.

# Railway Board's Recent Opinion Roundly Assailed

CHICAGO, Oct. 31.—A. O. Wharton, one of three members of United States railway labor board whose dissenting opinion on wage decision brought forth the "living wage" rejoinder by the majority members Sunday in a statement today declared the majority opinion was fallacious and contained untruths.

"I was not permitted to see the statement before published," he said. "Now that I have read it I find it is fallacious and contains untruths."

"In some places it presents alleged arguments which on their face are impossible. The majority statement speaks of a twenty million dollar increase it has given the maintenance of way men. On the same basis of figuring, it cut their pay \$50,000,000 in the July 1st decision so the railways are now \$30,000,000 to the good. It speaks of the cost of living but does not explain how a laborer can support his family on \$51 a month. It does not explain that the limitation pay increase means only 15 cents a day for each man."

"It says nothing of the men who live in shacks, in boxes and boxes set up on four posts. I openly urge the majority to have an unbiased committee to go into the sections and see conditions for themselves. The majority may try to make the public believe that I would have laborers have pay enough to buy a automobile this year. I ask only that a man be given pay that brings decency with it that Americans be enabled to live as Americans and enabled to live in respectability in their own environment and according to their own light and not as the wealthy."

Asked Neighbors, Too. After receiving the husband's consent, the wife asked several of their neighbors if the proposed marriage would be all right. The neighbors said that it ought to be all right if Garbett had no objections to it. Since he had none everything was arranged.

Now Mrs. Garbett is afraid that they will take Clifford away from her. Her friends are wondering whether she is a laughing stock. If the marriage in Canada is legal, then she is, by Canadian laws. But apparently the marriage was not legal and no action of any kind will be taken. The witness to the ceremony, L. Marshall, said he did not know the two were related.

SENATOR GLASS TO BE GUEST OF SALEM KIWANIS CLUB SALEM, Oct. 30.—Senator Carter Glass is expected to be the guest of Salem Kiwanis Club at their dinner Thursday, Nov. 2.

# Narrow Escapes In Chicago Fire

(Associated Press Leased Wire.) CHICAGO, Oct. 31.—Three women were hurt, one perhaps fatally in leaping from a burning building early today, when fire swept a block on West 55th street.

Next door that dwellers fled and 100 were made homeless. Several horses were burned.

# Herminie Gloats On His Fiance

He Thinks Ex-Kaiser "One  
of Most Generous and  
Kindest Hearted Men in  
the World".

(Associated Press Leased Wire.)  
LONDON, Oct. 31.—Princess Herminie, of Reuss, thinks her fiance, the former kaiser, is one of the most generous and kind-hearted men that ever lived and she is sure she will be the happiest woman in the world after their marriage on Sunday.

That is what she told the correspondent of the Daily Express today. "I know I love the Kaiser," she said. "Surely he is not so rich that it can be said that I am marrying him for money." She said a lot of other women were anxious for his heart and described how mad some of them were with envy and jealousy after their engagement was announced. "They did their best to hinder our engagement by intrigue," she said. Neither Von Ludendorff nor Von Hindenburg have been invited to the wedding.

## Death Takes Last Member Of Family

KINSTON, N. C., Oct. 30.—Death recently completed the annihilation of the family of Meddie Howard, 42, a farmer. Howard's wife and three children succumbed to influenza during the first epidemic of that disease several years ago. The funeral of Howard was held in the vicinity of Pink Hill yesterday afternoon. His nearest surviving relative is a half-sister. Howard died here Friday following an attack of appendicitis.

**NEW YORK COTTON.**  
(Associated Press Leased Wire.)  
NEW YORK, Oct. 31.—The cotton market opened steady at a decline of two points on December, but three to five points higher and sold from ten to 16 points over yesterday's closing during early trading. A better opening response to the firm showing of Liverpool was presented by scattered southern selling and overnight selling.

Cotton futures opened steady:  
December ..... 24.25  
January ..... 23.95  
March ..... 24.04  
May ..... 23.92  
July ..... 23.70

# Cake Which Killed Contained Poisons

Autopsy on Sterrett Discloses Bichloride of Mercury and Arsenic.

PHILADELPHIA, Oct. 30.—Postal, State and Chester county authorities worked yesterday in an effort to solve the mystery surrounding the death of W. W. Sterrett, expert accountant of this city, and the serious illness of his wife, Mrs. Martha Sterrett, from eating poisoned cake received through the mail at their home in Devon on Thursday afternoon.

Postal Inspector Simpson, of Philadelphia, chief investigator, said last night that nothing had been uncovered which would aid in the apprehension of the person or persons responsible for the poisoning, other than the chef which resulted Saturday when it was found that the package containing the death cake had been mailed from the Penn Square station here about 11:30 o'clock Thursday morning. The package bore a "written" address of the Sterretts and no other identifying marks, the customary return address being missing.

Analysis of Mr. Sterrett's stomach, made in the Bryn Mawr Hospital yesterday, disclosed traces of arsenic and bichloride of mercury poisoning. Whether this same poison was contained in the piece of cake which Mrs. Sterrett ate is not known, but it is thought that it was different poison because of different symptoms.

The examination of the dead man's stomach was made by Dr. George Boast, coroner's physician of Montgomery county. Mr. Sterrett died in Montgomery county. Coroner Boast said yesterday that no date for the inquest has been set as yet.

The fact that none of the cake which Mr. and Mrs. Sterrett ate was left has hampered the investigators. Mr. Boast said he thought the poison might have been contained in the

icing instead of the cake itself. Of the common variety known as "pound cake" such as is purchased by the pound at grocery stores and bakeries, the cake looked perfectly good. Mrs. Sterrett said it was yellow and had white icing.

In addition to that of Inspector Simpson, investigations are being conducted by District Attorney Windle and County Detective Mullin of Chester county, and Corporal Fox of Malvern. Of the three, it is considered most probable that the postal authorities will first reach a solution of the mystery, as the affair is based strictly upon the mail service. Inspector Simpson stated last night that, although no definite announcement could be made of any progress, he was hopeful that something would be brought to light soon.

## Supervisors Have Curtailed Hunting Season In County

Reports current here that the county board of supervisors planned a meeting at Chatham today at which the hunting season would be curtailed by prohibiting hunting for birds until November 15th, received no confirmation at Chatham where enquiries were made this morning. It was said that the board would hold its regular monthly meeting tomorrow and that there was no prospect or indication of the board taking last minute action looking to curtailment of the season.

## Father Vaughan Dies In London

(Associated Press Leased Wire.)  
LONDON, Oct. 31.—Father Bernard Vaughan, noted Jesuit priest in the world and brother of Cardinal Vaughan, died here today. Several years ago he toured the United States and parts of Canada and Alaska and later lectured in Japan.

## TICKER TALK

(By Courtesy Thomson & McKinnon.)  
NEW YORK, Oct. 31.—Steel dividend and earnings after 3 p. m. Studebaker directors meet at noon to act on dividend.  
Government to withdraw \$13,000,000 from member banks in this district today.  
Steel dividend meeting.  
Studebaker earned \$7.19 per share on common in third quarter 1922 as compared with \$7.32 preceding quarter, and \$7.19 for period 1921.  
Government may be asked to revise law to prevent its application to ship interests.  
Standard Oil of Indiana cuts gas taxes.  
Any officials say there is no intention on part of administration to increase imposition of additional taxes to counter winter season.  
Eugene Meyer, Jr., managing director War Finance Corporation, returned from Western tour declares general business conditions in West improved over year ago, but shortage being only obstacle to commercial progress.

## Young Girl Says Trio Conspired To Steal Gems

NEW YORK, Oct. 30.—Miss Mary Jones, 19, of South Norfolk, claiming to have been robbed of a diamond bracelet at Ocean View last Monday night, today swore out warrants for the arrest of two men and a woman who were her companions. The warrants were issued by Justice T. E. Gilman of Washington, but have not yet been returned.  
Miss Jones said that she was with a 14-year-old woman and two Norfolk taxi cab drivers, whom she believed conspired to get her drunk and then to rob her of her necklace and bracelet. She refused to drink, she said, and to go with them to a room in the York hotel. She declares that the man who was with them beat her and took her necklace.

**STOCK MARKET**  
(Associated Press Leased Wire.)  
NEW YORK, Oct. 31.—Some irregularity took place at the opening of the stock market but prices started upward at once in response to demand for oil shares and a good country for steel, equipment, copper and standard rail. Short covering was responsible for the jump. Mexican Petroleum advanced 2 1/4 points. Standard Oil of California, two, General Asphalt, 1 3/4 and Standard Oil of New Jersey, 1 1/2.

—Miss Ethel Travis today underwent an operation at the General Hospital for the removal of tonsils, and was reported this afternoon as doing well.

## Good Morning Judge!

Lex Campbell was the first victim of Mayor Harry Wooding's new policy of dealing with intoxicated drivers of automobiles more severely when he was this morning fined \$100 and costs for driving a machine yesterday while under the influence of whiskey. Two other warrants charging traffic law violation and plain drunk were dismissed.  
The case was aired thoroughly in court this morning. Detectives J. N. Campbell and J. C. Lewis testified that yesterday shortly after noon they were answering a call near the city on the Yanceyville road. They stated that Campbell came down the road at a rate of speed not less than 35 miles an hour and that his machine was swerving from one side of the road to the other. Judging that the man was in no condition to run a car, Officer Campbell telephoned police headquarters and asked the police to look out for Lex Campbell, who was approaching town in a very dangerous manner. Sergeant J. H. Martin and Patrolman F. G. Towell went to Campbell's home in North Danville and found that the latter had not arrived there. Both Martin and Towell testified that although Campbell was not too drunk to walk he was considerably under the influence of whiskey. However, they warned him not to take the car out again and summoned him to court.  
About two hours later Officer Towell was working traffic at the corner of Main and Union streets. He saw Campbell coming up Main street and threw the "Stop" paddle against him in an effort to stop him. Campbell did not stop but continued up the street. By this time Sergeant Martin, who was standing near the corner, saw him and again waved another automobile and gave pursuit. Campbell is alleged to have run through the safety one in front of the postoffice. The officer finally caught Campbell just beyond Jefferson street and brought him to the courthouse.

Although there were but comparative few cases on the docket this morning, almost two hours were taken up in disposing of them.

The case of Frank Cusins, charged with shooting James Davis, a negro prisoner, was again continued until Tuesday. It was stated that the bullet had just been removed from Davis' leg and that he was unable to walk to court.

Fines of \$21 and costs each were imposed on Mary Swann and Ellen Crone, negroes, for operating disorderly and ill-governed houses on Newton street.

Alice Moore, colored, was fined \$100 and costs for a violation of the M. P. Act. The negroess was caught some time ago with five gallons of whiskey. Her counsel made an appeal this morning that the usual jail sentence be suspended, producing a physician's certificate showing that the woman was in bad physical condition. It also being brought out that it was her first offense.

Clay Watson was fined \$10 and costs for violating the Mapp act.

The case of C. L. Perrow, charged with feloniously assaulting George Edward and W. D. Parker by running over them with his automobile last night, was set for November 10. Ben Elliott was given until Saturday to get a job. Ben was arraigned on a charge of looting.

Issues Rule  
Against K. K. K.  
(Special to The Bee.)  
RICHMOND, Va., Oct. 31.—The State Corporation Commission has issued a rule against the Ku Klux Klan.

# FOUR **Slight Lull In Election Talk Among English**

LONDON, Oct. 30.—(By The Associated Press)—There has been a slight lull in "big gun" election oratory today. The new prime minister, Mr. Bonar Law, moved into his official residence in Downing street and will hold his first cabinet meeting tomorrow. He is still experiencing difficulty in completing his ministry.

Mr. Lloyd George and Lord Birkenhead in their recent speeches at Glasgow made great play with the moderate political capacity and attainments of the statesmen and prime minister had gathered around him as compared with those who remained loyal to Lloyd George and these personal attacks on the new administration have caused considerable angry feeling on the part of the prime minister's lieutenants, the more especially as in their election campaign they are feeling their inferiority in oratory in comparison with their opponents.

Moreover Stanley Baldwin, who is Mr. Bonar Law's chief lieutenant, is generally thought to have been somewhat tactless from an electioneering standpoint when he declared that there would be no immediate reduction in taxation. Altogether, in the general estimation of the press, Mr. Bonar Law's election stock seems to be in a falling market, while the Lloyd George stock, the newspaper assert is rising.

Lord Carson, in a letter to friends Belfast, makes his first political pronouncement in this campaign, expressing the fervent hope that a government will come into power in England which will be thoroughly loyal to the Irish settlement as contained in the act of 1920 as far as the six Ulster counties are concerned, and declaring that he wishes to bring home to the minds of the British electorate that the single aim of the Northern Ireland government is to promote even still closer relations between Ulster and England.

John Robert Clynes, in a speech at Huddersfield, Nottinghamshire, tonight, said the Labor Party would readily give up its capital levy plan if there was a better method, but if the other parties had not plan they had no right to say that labor's scheme could not succeed before it had been tried.

# **RAIL CONTROL RELINQUISHED BY THE ALLIES**

WASHINGTON, Oct. 30.—Withdrawal of allied troops from Siberia has been followed by relinquished control of the Chinese Eastern Railway on the part of the American, British, French, Italian and Japanese Governments, through their representatives on the inter-allied committee at Vladivostok and the technical board at Harbin. Each of the five governments, it was announced today at the State Department, has instructed its representatives on the two commissions to conclude their affairs and immediately terminate further activities, leaving future management of the railway in the hands of its board of directors.

Formal notification of the decision of this country to relinquish control of the railway, in company with four other governments, was contained in a note made public by the State Department and cabled to the Chinese foreign office at Peking. The note made it plain, however, that the Washington government reaffirmed "its concern in the preservation of the Chinese Eastern Railway with a view of its ultimate control of those interested without impairing any existing rights."

It was pointed out that the American government will not fail to continue to observe carefully the administration and operation of the railway.

# **BLUNDON TAKES STAND IN TRIAL**

RICHMOND, Va., October 30.—Colonel H. Gordon Blundon, former president of the Commonwealth National Bank, Reedville, was on the stand today in his own defense and made a good witness. He said that at the time of the fire at the bank and the robbery he owned 141 shares of the total of 230 shares of stock. He said that he had about \$13,000 over and above his total liabilities. For some of the stock he owned he had paid \$175 a share. He also said that he expected to see payments made of 50 to 60 per cent. on all liabilities. He had been assessed \$14,100 on his holdings of stock. He told of having devoted some time after the fire period getting the affairs in shape for resumption of business.

# **BLUNDON SAYS HE GAVE ALL ASSISTANCE**

RICHMOND, Va., Oct. 30.—Testifying in his own behalf before a jury in United States District Court, H. Gordon Blundon, former president of the Commonwealth National Bank of Reedville, today declared that he gave the receiver every assistance he could and acted for a trustee in investigation of the bank's affairs.

Blundon admitted on direct examination that he "acted indiscreetly" in the transfer of the Petersburg Bank stock to a Baltimore concern, justifying his action with the declaration that he later was able to cover the amount of the duplicate stocks and that the bank lost nothing in the transaction. Blundon said he exchanged 100 shares of Petersburg stock for that of Commonwealth Bank. After his bank was destroyed by fire, he said, he secured duplicates of the shares to use as additional security to a personal loan made to him by a Baltimore concern.

The defendant was on the stand about three hours today and had not suggested the duration of his testimony when the court adjourned. He will be recalled tomorrow, in his testimony today, Blundon gave the jury a detailed story of his life, including his connection with the bank whose funds the government alleged he embezzled.

In detailing his story of the fire, Blundon said he was awakened by his wife and rushed to the bank. He said he sought aid from a Baltimore steamer that was docked at Reedville, but the master of the vessel refused his plea for help in extinguishing the fire. He admitted that the time lock on the safe was set for 38 hours from the close of business on the preceding Saturday, declaring that this was a custom adopted because the lock was slow and caused trouble in opening the vault door.

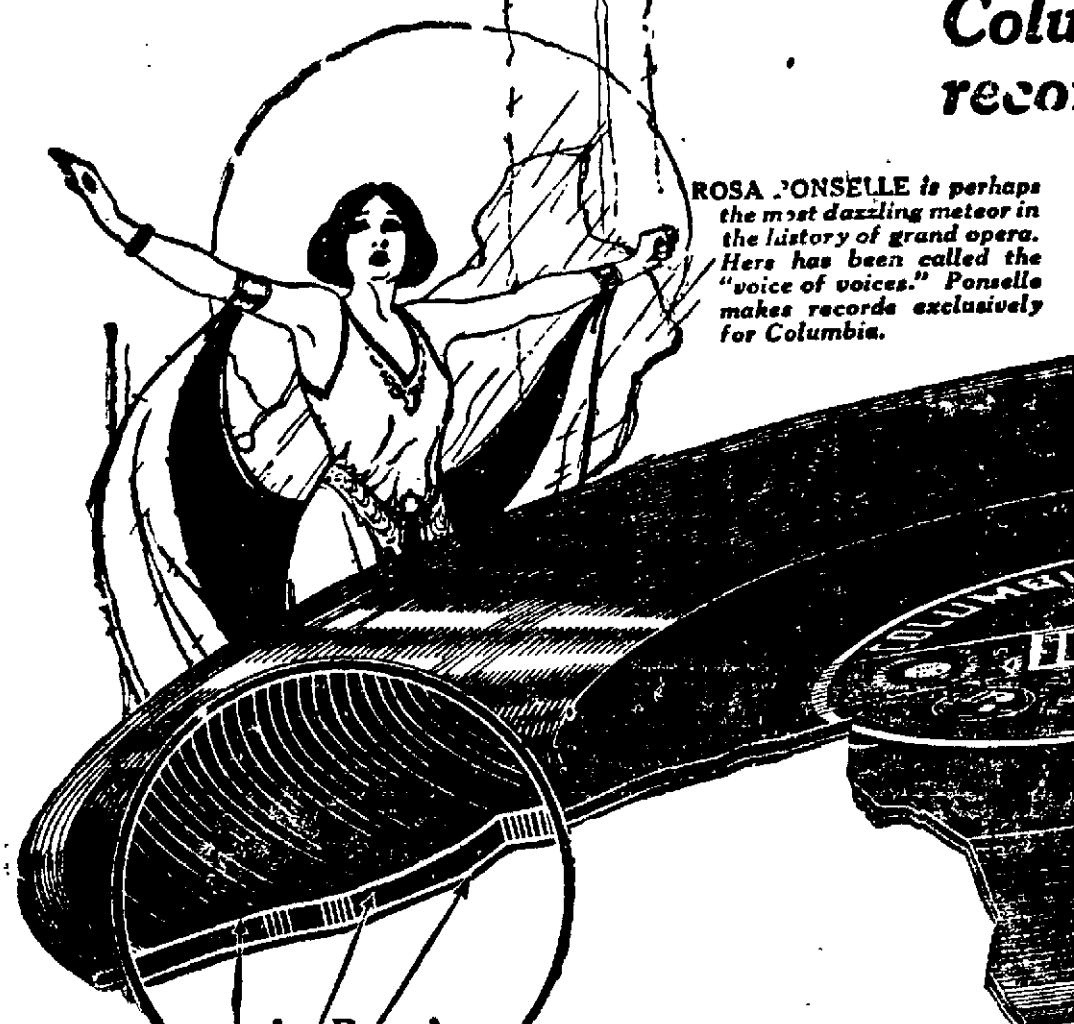

# **EXCUSES GIVEN PARIS FOLK DELAYED ON CARS**

PARIS, Oct. 30.—Regular schoolboy excuses, dated and signed by conductors, are given to passengers on Paris subways.

If a tie-up retards traffic these printed forms are given to all passengers as proof of the cause of the lateness. These alibi slips inform employers they may have further information by phone if desired.

# **Startling Good News for Phonograph Owners!**

**Columbia discovers a process which produces records free from objectionable Surface Noise!**

ROSA PONSSELLE is perhaps the most dazzling mator in the history of grand opera. Here has been called the "voice of voices." Ponselle makes records exclusively for Columbia.

As a phonograph owner you have always been annoyed by the swish and grinding and scratching noises of records. This "surface noise" has been considered impossible to remove. After years of experiment, the Columbia Graphophone Company to-day presents to the world a record that is virtually noiseless.

This record has been made possible by the discovery, in Columbia laboratories, of a process by which we are able to produce a surface material so fine in texture, so marvelously smooth, so free from friction that the phonograph needle travels over it almost inaudibly and with imperceptible wear.

The playing-result from the use of this new material is actually astounding—no other word can describe it. Melody unmarred by penetrating, obtrusive surface sounds, harmony without disconcerting scratch or scrape—think what this means to you and to every phonograph owner in the world.

This is made practical by Columbia's patented laminated, or three-ply, construction. The core or centre leaf in Columbia New Process Records, because it is absolutely distinct from the playing surfaces, is made of a harder, more durable substance. Over this rigid backbone are laid the two playing faces made of the new, ultra fine, ultra smooth surface fabric.

This laminated construction gives greatly increased strength and longevity plus the most noiseless surface ever perfected.

The invention of this new process record by the Columbia Graphophone Co.—for it is the genius-creation of Columbia engineers and chemists—marks the greatest outstanding improvement since the invention of the universally used disc record.

With New Process Columbia Records you get all the real beauty of voice; all the exquisite, delicate tones of the cello and the violin! You get melody uncontaminated by objectionable surface noise that has been considered impossible to remove UNTIL COLUMBIA REMOVED IT!

So great is our confidence in the enjoyment New Process Columbia Records provide that we ask you to tear out the list of records in this advertisement, take it to a Columbia Dealer and have him play them! Possibly he can play the same selections by other makers! Each comparison test will be a greater Columbia triumph!

You will be thrilled by the Columbia reproduction of every note, every inflection; of the most delicate phrasing—shades of harmony exquisitely expressed that have previously been LOST IN SURFACE NOISES!

In comparison with ordinary records, as made by other manufacturers, New Process Columbia Records will prove immediately preferable.

No other record can be like New Process Columbia Records. No one can produce anything even resembling them, for they are fully protected by broad basic patents.

# Man Slain, Then Stuffed Into Bag, Left Near Church

Five Bullets in Body, Which Was Warm When Found in Front 22d Street Church.

NEW YORK, Oct. 30.—A large burlap bag in the gutter before St. Paul's Lutheran Church, drew the attention of Policemen Sommers early yesterday morning. He thought he noticed it quiver and hastily opening it, found the lifeless, though still warm, body of a man, who had been shot five times.

Automobile tracks coming from Ninth avenue and swinging upward from the spot where the body lay convinced the policeman the man had been slain elsewhere and carried there.

Acting Captain McCarthy with detectives at once began the task of identifying the victim and turning down his slayers. The police are confident they will solve the mystery. The dead man was about twenty-five, 5 feet 6 inches tall and weighed about 150 pounds. Tattooed on his right arm was the name "Nemo, N. M." and on the left arm the initials "F. M." The body was in a burlap bag meaning "Love of Mother."

The body was found in a burlap bag in the gutter before St. Paul's Lutheran Church, drew the attention of Policemen Sommers early yesterday morning. He thought he noticed it quiver and hastily opening it, found the lifeless, though still warm, body of a man, who had been shot five times.

## "Gets-It" For Corns Costs Little

If so-called corn "cures" had only made your feet more sore and tender.

don't despair. For instant, complete, permanent relief is guaranteed by the new method. A few drops of "Gets-It" removes any old or new, hard or soft corn from any foot. It peels off in your fingers. Costs but a trifle—everywhere. Recommended by all druggists. E. Lawrence & Co., Inc., Chicago.

Sold in Danville by J. C. McFall's Drug Store, John L. Hagen and Booth's Drug Store.

### Makes a Family Supply of Cough Remedy

Really better than ready-made cough syrups, and saves about \$2. Easily and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the tickle in the throat and soothes the inflamed membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and laryngeal asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract and has been used for generations to break up severe colds.

To avoid disappointment, ask your druggist for 2½ ounces of Pinex with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

## KINKY HAIR

Only one EASY WAY. Guaranteed to give you the most beautiful, wavy, curly hair. No more straightening, no more damage. The only way to get kinked hair. Guaranteed to give you the most beautiful, wavy, curly hair. No more straightening, no more damage. The only way to get kinked hair.

NEW YORK, Oct. 30.—A large burlap bag in the gutter before St. Paul's Lutheran Church, drew the attention of Policemen Sommers early yesterday morning. He thought he noticed it quiver and hastily opening it, found the lifeless, though still warm, body of a man, who had been shot five times.

## BEAUTY SUGGESTIONS BY AN EXPERT

By BERNARR MacFADDEN.

Beautiful womanhood is impossible without a well-developed, symmetrical bust and chest.

This particular area of a woman's body indicates her vital condition. A strong chest in nearly every instance insures a heart that is vigorous and capable of satisfactory functioning and well-developed lungs that are in turn responsible for a clear, smooth, healthy skin. A flat, under-developed bust, or an over-fat one is equally undesirable and unlovely.

The following exercises will make a decided improvement in the contour of your chest and bust and will bring it to the point of perfection nature intended it to attain.

**First Exercise.**

For exercise one, lie flat on a couch and hold two books over the head in the position shown in the picture, keeping the elbows rigid. Bring the books immediately over the head. Return and repeat until tired.

Then hold the books in the hands as shown in figure two. Return and repeat until tired.

With the left hand firmly placed against the right elbow, as in figure three, bring the right arm toward the left, the left arm resisting the motion. Return and repeat. Then take the same exercise with the position of the arms reversed.

For exercise four, hold the books in each hand, the hands as shown, as shown, the elbows rigid. Bring the arms upward, touching the books together immediately over the head. Return and repeat until tired.

**New School Is Demolished By Explosions**

CLEVELAND, Ohio, Oct. 30.—The Mayfield township graded school, under construction in South Euclid, east of here, was demolished by two explosions last night. Houses in the vicinity were shaken and the blasts were heard in a radius of several miles.

There were two explosions at intervals of two minutes. One charge had evidently been placed in the boiler, recently installed, while the other was in the northeast corner of the building.

The building, a two-story brick structure, was being erected by the Harbaugh Construction company of Akron, at a cost of \$50,000.

According to Harry A. Johnson, president of the South Euclid board of education, there were several labor disputes during the course of construction because the company employed both union and non-union men. Work had been halted since last Monday, when employees working on the building struck.

**\$1,000 Fine Is Assessed Klan**

RICHMOND, Va., Oct. 31.—The Ku Klux Klan, with headquarters in Atlanta, has been subjected to a fine of \$1,000 for failing to secure a license to do business in Virginia. The Virginia state corporation law requires that any corporation may do business within the state without first obtaining a charter from the state corporation commission and the failure of the Klan to abide by this ruling gives the state the right to issue a notice against any official of the national organization.

Until the fine is paid and a certificate of authority granted, the national organization will be unable to collect from Richmond chapter No. 1, Knights of the Ku Klux Klan, whose connection with the Klan organization has been severed.

The national organization has filed a suit in hustings court, Part 12, claiming damages aggregating about \$10,000, as due from the Richmond chapter.

Section 2848 of the code of 1919, provides that no foreign corporation shall recover any money or property or enforce any contract in any court without first obtaining a certificate of authority and until all fees, taxes, etc., have been paid.

The new Richmond order, the Anglo-Saxon Club, is contesting the suit instituted by the Klan and the case has assumed a changed status since it was discovered that the Klan has not been legalized in Virginia.

**High School Lad Gives Blood In Vain For Mother**

NORTON, Oct. 30.—Charles Gilly, 15-year-old high school boy of Big Stone Gap, gave a pint of his blood in the battle to save the life of his mother, Mrs. G. F. Gilly, at the Norton hospital here last week. It was first thought that blood transfusion was going to be successful, but Mrs. Gilly died the following day.

She was buried at Big Stone Gap Wednesday afternoon. Besides her husband she is survived by nine children: Mrs. Joe Martin, Denver, Colo.; John, Billie, James, Charles, Mary, Margaret, Ralph and Helen Gilly, all of Big Stone Gap.

Mrs. Martin arrived in the Gap Wednesday morning in time for the funeral Wednesday afternoon.

**Sarazen's Victim Dies Of Injuries**

NEW YORK, Oct. 30.—Luke Robinson, 44 years old, 18 Clinton street, White Plains, who was run down by an automobile driven by Gene Sarazen, golf champion, Thursday, died at the White Plains hospital yesterday.

The Morgue. He said the man was unknown to him. An autopsy by Chief Medical Examiner Glavin showed two bullet wounds in the chest and two in the back. The bullets were all of .32 calibre. The right shoulder was broken and there were other marks to indicate either a fight or a fall.

Candlelight spots were on the bag and on the man's clothes. It is believed he was shot while standing at the head of a flight of steps and fell into an airway or cellar where his slayers had to use candles to find the body. The bag was of heavy burlap of the kind used to cover furniture and merchandise.

## Place Democratic Dependence in the Women Voters of Va

By GEORGE H. MANNING

(Special to The Bee)

WASHINGTON, D. C., Oct. 31.—Will the women decide the Ninth district of Virginia for democracy? The Virginia members of the U. S. House of Representatives and many other Democrats of prominence who have been in the district lately believe that they will.

The reason for placing democratic dependence in the women was today outlined by Representative James P. Woods of Roanoke as follows:

Generally speaking, democratic strength lies in the courthouse towns and communities in touch with the industrial centers of urban contacts. Here the women have been encouraged to venture into politics and have taken on the responsibilities of suffrage by registering and paying their poll taxes.

Republican strength in the remote sections of the mountains is still confined largely to the male members of the families, since the average mountaineer is set in the ancient belief of the fathers that the man is the head of the house and votes for women somehow seem to him to strike at his patriarchal authority.

Democratic women, it is declared, are registered in large numbers, and qualified to vote next Tuesday. Republican women, on the other hand, are largely as silent in the decisions of the ballot box as ever.

Hence the question, will the women return the district to the Democratic column next week? If the result shows the election of George C. Peery, the democratic nominee, he will have the women to thank, it is claimed.

Representative Woods and Representative Montague asserted today that they were convinced the democratic chances of victory in the Ninth are splendid. The Democrats of the Ninth, they said, are in the fight now in a degree not seen for two years ago to elect Henry C. Stuart, which fell short about 300 votes.

The retirement of Representative Sloop, it is held, gives the Democrats an advantage of at least 1,000 votes, because Sloop is at least that much stronger than his party in the Ninth.

The Democrats are now claiming that even Tazewell county, the home of Mr. Peery, but for many years one of the strongest Republican enclaves in the district, will go Democratic. Peery's family connection is large and runs back over a hundred years. On the other hand, Mr. Hassinger has been a resident of the Ninth less than twenty years. Among the clanish people of the southwest this fact is held to be a distinct handicap.

**Man Shot To Death In Moonshine Feud**

CULPEPER, Va., Oct. 30.—In a shooting affray yesterday afternoon in Madison county, Virginia, near Northey Mill, Jim Nichols is said to have slain William Corbin to death, firing four pistol bullets into his body, instantly killing him.

It is said there is a large band of moonshiners in that section of the State and day before yesterday the county prohibition officers, assisted by State officers, raided several illicit stills, one owned and operated by Jim Nichols, the alleged slayer of Corbin in the shooting battle today.

Corbin, being promised immunity, is said to have informed the officers that Nichols had a still in operation. This was then raided and a quantity of moonshine liquor found. This so enraged Nichols that he immediately went in search of Corbin armed with a pistol, sending word to him that on sight he would kill him. On seeing Nichols without warning, he fired. It is said that this is the outgrowth of a feud of liquor runners, whose patrons are in Washington and in different parts of Virginia.

Jim Nichols so far has made good his escape and is still at large, the fastnesses of the Blue Ridge Mountains. A party of prohibition officers are now on Nichols' trail with orders to "take him dead or alive."

The surrounding country is excited over the murder. Corbin leaves a widow and a large number of children.

**Castle of Ulsterite Destroyed by Fire**

BELFAST, Oct. 30.—Antrim Castle, near Londonderry, the home of Viscount Massereene, parliamentary secretary of the Prime Minister of Northern Ireland, was destroyed by fire this morning. A small servant perished in the flames and others of the household had narrow escapes.

Miss Grace D'Arcy, daughter of the Most Rev. Charles Frederick D'Arcy, Protestant Primate of All Ireland, was forced to leap from a window to escape of flames. Among other guests of Viscount Massereene was Major-General Cameron, commanding the forces in Ulster.

Ladrian Castle, in County Galway, built in Cromwellian days, also was destroyed by fire set by armed men Saturday.

**Max Oser Buys Swiss Love Nest**

HASLE, Oct. 30.—Max Oser has purchased his love nest. It became known here yesterday.

The Swiss riding master who is to wed Mathilde McCormick, granddaughter of John D. Rockefeller, when she is eighteen, has purchased an estate on Lake Neuchâtel. They will live there following their marriage, it was said.

Mathilde is at St. Peter's Island on the Lake of Geneva, accompanied by a chaperone. She sees Oser daily.

Mrs. T. E. ADDINGTON

**For That Cough!**

Good Advice for Men or Women. Big Laurel, Va.—"I had a bad cough, had nearly run into consumption, and I also had feminine trouble. I took four bottles of Dr. Pierce's Golden Medical Discovery for the cough and two of the 'Favorite Prescription' for the trouble peculiar to women, and was entirely cured. It has been more than a year since and there has been no sign of the diseases reappearing. I told Dr. Pierce's medicines are just what they are claimed to be. I am thankful for what they have done for me and I wish others may be benefited by their use."—Mrs. Tryphena E. Addington.

When you have a bad cough obtain Dr. Pierce's Golden Medical Discovery from your nearest druggist and be relieved.

If you are a woman suffering with chronic weakness peculiar to your sex you can be benefited by 'Favorite Prescription.' Tablets or liquid.—adv.

## Ninth To Name George Peery, Governor Says

RICHMOND, Va., Oct. 31.—A political revolution is in progress in the Ninth district, and unless all indications fail, George C. Peery, democratic candidate for Congress, will win by a large majority in the election to be held a week from tomorrow, is the conclusion of Governor E. Lee Trinkle, who returned to Richmond last night from a speaking campaign in the Ninth.

The voters, he said, are dissatisfied with the present national administration and loud in their praise of the Wilson regime. The provisions of the tariff bill and the higher tariff in the Ninth district is calling to citizens of the southwest, said the governor, and their ballot Tuesday will be the greatest rebuke the Republican party has ever received in Virginia's history.

In every town where he spoke, Governor Trinkle said, the hall was jammed to the doors and every reference he made to Woodrow Wilson was cheered to the echo. Political wisecracks in the Ninth district, the governor said, predict that even Wise and Russell counties will go Democratic, and Republican bets are scarce.

The only thing that gives the Democrats concern, according to Governor Trinkle, is the great amount of Republican money flowing into the district from other states. Chairman Byrd, of the state Democratic committee, has asserted that more than \$50,000 is being spent by the Republicans to elect J. H. Hassinger, and the governor is of the opinion that this is a conservative estimate.

The present fight will go down in history as one of the most memorable in the history of the district, the governor said, and all the voters, both men and women, are on the stump. Political rallies have taken on the appearance of holidays, he added, and the election next Tuesday is the principal topic of discussion at all meeting places.

Former Governor James M. Cox, of Ohio, Democratic candidate for president in 1920, was scheduled to speak in Norton Saturday afternoon, but the Democratic committee requested that he postpone the engagement and he will speak in Bristol Wednesday instead.

Do not overexert at first, but devote a few minutes daily to these exercises, and you will notice a decided improvement.

## Why Teeth Show

In pictures—and everywhere today Millions are removing film

Have you noted how most pictures now show pretty teeth? And how countless people, wherever you look, show beautiful teeth when they smile nowadays?

Those are results of this new way of teeth cleaning, which millions now employ. Now we urge you to try it at our cost, and to start today.

**Try combating film**

Until late years, nearly all teeth were kept clouded by a film. And 49 in 50 people suffered from film attacks.

Film is that viscous coat you feel. It clings to teeth, gets between the teeth and stays. It forms the basis of dirty coats, including tartar, unless you constantly combat it. Stains are absorbed by that film.

It also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Gotten rid of by millions in it. They, with tartar, are the chief cause of pyorrhea.

Bring a You will facts, amazed very little Present it. Note feel after use of the viscous whitened as th. New beaut with those w safety, new scouring teeth but by fitting removal. This means yours to be Cut out this cent it at you

## Max Oser Buys Swiss Love Nest

HASLE, Oct. 30.—Max Oser has purchased his love nest. It became known here yesterday.

The Swiss riding master who is to wed Mathilde McCormick, granddaughter of John D. Rockefeller, when she is eighteen, has purchased an estate on Lake Neuchâtel. They will live there following their marriage, it was said.

Mathilde is at St. Peter's Island on the Lake of Geneva, accompanied by a chaperone. She sees Oser daily.

Mrs. T. E. ADDINGTON

**For That Cough!**

Good Advice for Men or Women. Big Laurel, Va.—"I had a bad cough, had nearly run into consumption, and I also had feminine trouble. I took four bottles of Dr. Pierce's Golden Medical Discovery for the cough and two of the 'Favorite Prescription' for the trouble peculiar to women, and was entirely cured. It has been more than a year since and there has been no sign of the diseases reappearing. I told Dr. Pierce's medicines are just what they are claimed to be. I am thankful for what they have done for me and I wish others may be benefited by their use."—Mrs. Tryphena E. Addington.

When you have a bad cough obtain Dr. Pierce's Golden Medical Discovery from your nearest druggist and be relieved.

If you are a woman suffering with chronic weakness peculiar to your sex you can be benefited by 'Favorite Prescription.' Tablets or liquid.—adv.

## Did Her Eyes See Hall Murder?

Mrs. Jane Gibson, "pig-woman" of New Brunswick, has created a sensation in the Hall case with her story of what she saw the night she mounted her mule, Jenny, and patrolled her cornfields. She now holds the center of the stage in the Hall-Mills tragedy.

## PIPE DROPS FROM AUTO WITH THIS RESULT

Striking a piece of pipe which had gone left the rails and plunged diagonally across the track into the Baltimore & Ohio railroad tracks, the Fairmount Express was derailed at Sutersville, Pa. The engine and passenger cars were smashed and other obstacles were smashed as the engine traveled several hundred feet off the tracks. The fireman was killed, the engineer was severely injured and 20 passengers were slightly injured.

## LESS MILEAGE OF

ROADS ACCEPT BALTIMORE PLAN

## CHICAGO, October 30.—A total of

77,854 miles of the nation's railroad mileage is credited as having been signed under the Baltimore plan ending the shop crafts strike as compared with 92,165 miles signed with independent or company organizations according to up to date figures compiled by a railroad statistician, and published today.

The summary shows that 53 class one carriers accepted the Baltimore plan, fostered by B. M. Jewell, head of the strikers and Daniel Willard, president of the Baltimore and Ohio and Fred Wardell, president of the Seaboard Air Line. It credits 40 class two and five class three roads with having signed.

In the detailed statement of the roads negotiating agreements with independent of company unions, the statistician claims that 27 have followed this plan.

## Sheriffette

Claire Scanlan, St. Paul, thinks she's the world's only official sheriffette. She's had that title conferred on her by Sheriff John Wagener and she wears a star to prove it. She cares for women prisoners.

### WHAT PER CENT.

OF ALCOHOL IS INTOXICATING?

### ST. LOUIS, October 30.—United

States Senator Seldon P. Spencer of Missouri, today announced that he proposed to introduce a resolution in the Senate for the appointment of a committee to determine specifically the amount of alcohol which makes a beverage intoxicating. The statement said nobody seriously contended that liquor is a poison, or that one percent alcohol content was intoxicating. Senator Spencer who voted for the Volstead act expressed the opinion last week that some features of the law were "too harsh" and asserted that the Supreme Court upheld the section of the Volstead act which set the alcohol content on the theory that Congress has the power to provide any reasonable method of enforcing the 18th amendment, but not on the theory that one half of one per cent. of alcohol makes a beverage intoxicating.

### URGES CONGREGATION TO

"FORGET OLD FOGY IDEAS"

### NEW YORK, Oct. 30.—Echoing

Ambassador Harvey's recent speech in London to the effect that new ten commandments might well be drawn up for women, Dr. Jerrold S. Grant, pastor of the fashionable Church of the Ascension, today urged his congregation to "forget old foggy ideas" as much in religion as in other realms of knowledge and progress. Dr. Grant made these statements:

1. That Christianity was accepted by the Romans because it made provision for their wives.

2. That the ten commandments were apparently written for men.

3. That Christianity exalts the position of women.

Dr. Grant's proposed marriage to Mrs. Philip Lydig, a divorcee, has been the subject of bitter dispute between him and the Episcopal Church. Evidently, with this in mind, Dr. Grant said:

"The religious idea of yesterday will not fit in with the life of today any more than the scientific ideas of yesterday fit in with the scientific knowledge of today. Christianity must keep in step with the march of progress."

"I admire deeply the preacher who can voice any new idea in religion without arousing antagonism. I am afraid I am unable to do that."

### BANKER SPANKED HIS WIFE

BUT DENIES HE WAS CRUEL

### NEW YORK, Oct. 30.—An

admission that he spanked his wife was made by Frederick D. Montford, formerly vice president of the Second National Bank of St. Paul, in papers on which the Appellate division of the Supreme Court today reversed a special term order granting \$750 for counsel fees to his wife, Adele Bliss Montford, who is suing him for a separation.

Regarding the incident, which he said occurred at the Sante Lucia Hotel in Naples, Italy, on October 8, 1921, Montford stated:

"My wife one evening became enraged because I corrected my child, who was naughty, as the best children will be occasionally, and attempted to assault me. I thereupon spanked my wife."

"In jumping around and striking at me, she lost her balance and fell down on the floor. Her statement that I struck her, knowing her daughter is a blamed, unvarnished lie, and she knows it."

Mrs. Montford, a graduate of the fashionable Miss Ely's school, stated in her papers that her husband was so cruel she could no longer live with him.

### AGRICULTURAL CONGRESS

MEETS IN PARIS IN 1923.

### WASHINGTON, Oct. 30.—The

International Congress of Agriculture will be held in Paris next May or June. This will be the eleventh international congress, and the first since the war.

The International Agriculture Commission is a permanent body whose chief function has been the organization of such congresses, and the United States Department is much interested in its work. M. McInnes, former Minister of Agriculture of the United States, has been president of the commission since 1908, and this country has been represented for many years on the commission by several members of the federal delegation.

### \$11,000,000 BET ON RACES

BALTIMORE, Md., Oct. 30.—About \$11,000,000 was passed through the pari-mutuel line at the Laurel Race track, Oct. 29, according to figures, it was learned today. This compares with about \$12,000,000 for the meet last year.

## CATHOLIC WOMEN TO

DISCUSS SOCIAL WORK

WASHINGTON, Oct. 31.—Catholic women from all parts of the United States will attend the second annual convention of the National Council of Catholic Women, from November 21 to 25, to discuss social work in which Catholic women are engaged. The program includes discussion of plans for organizations in the various sections of the country.

Among the subjects to be presented: Girl, Welfare, Housing Conditions for Girls and Women in Industry, Travelers Aid, and Immigration and International Relations.

During the convention the delegates will visit the National Catholic Service School, conducted by the Council, which offers courses in social work. The object of the school is to train Catholic women for leadership in their communities and also to prepare trained social workers.

The courses include: ethics, sociology, clinical psychology, economics, social work public health, child hygiene home economics and other similar subjects.

## RICHIA PULLERS

MAY LOSE JOBS

### SHANGHAI, Oct. 30.—As an

outcome of recent ineffective strikes among richia pullers in Shanghai and in response to a demand voiced in numerous published expressions on the general richia question, the Municipal Council of the International Settlement is considering the question of going into the richia business itself. This is set forth in an official announcement which says the council is conducting an inquiry into all phases of the question.

At the present time the number of richia licenses issued in the International Settlement is limited to \$5,000, in addition to something over 2,000 issued to users of private richias. The bulk of the licenses for public richias is held by three or four concerns, the largest of which operates 3,030 public richias.

### CONDITIONS IMPROVED

BOSTON, Oct. 30.—Manufacturing activity in New England is better than at any time since last November, and retail trade has been very much better this fall than it was a year ago, says the monthly review of the Federal Reserve Bank of Boston, made public tonight.

The review says conditions in the textile industry are distinctly encouraging.

## TRIALS OF INDICTED DRY CHIEFS HELD UP BY COURT CONGESTION

By HARRY HUNT

WASHINGTON, Oct. 31.—Prosecution of big prohibition cases has been indefinitely delayed because of court congestion.

That is the reason given by Attorney General Daugherty and minor federal officials.

Some important cases in which former prohibition enforcement officials have been indicted but have not come to trial are:

HAROLD L. HART—former prohibition director of New York, indicted January 4, 1922, on charges of conspiracy to defraud the government by the issuance of fraudulent permits for withdrawal and transportation of liquor.

W. C. MCCONNELL—former prohibition director of Pennsylvania, indicted March 24, 1922, on charges of conspiracy to defraud the government and with issuance of illegal permits.

Indicted with Hart were 15 other individuals and four firms. Along with McConnell indictments were returned against his secretary, his chief clerk and 44 others.

Hart, McConnell, Catrow and the others all deny the charges against them.

Two days after the Hart indictment—which, according to Assistant Maxwell States District Attorney Maxwell S. Mattuck, involves fake permits releasing at least \$1,000,000 worth of liquor from bonded warehouses—federal officials said the case would come to trial quickly.

Nearly ten months later Mattuck says: "The courts have been clogged. Soon, however, we are to have three more federal judges in the New York district. The Hart case will go on the December calendar."

Attorney General Daugherty passes responsibility to district officials. "The department of justice is most anxious to see all prohibition cases expedited," says Daugherty. "This department, however, cannot properly press for their trial to the prejudice of other cases before the courts. Prohibition cases are given places on the court calendar along with the multitude of other cases awaiting trial."

My last inquiry in the Milwaukee case is in the hands of the court and the district attorney in that district and not in this department."

Assistant Prohibition Commissioner James E. Jones says: "The big reason for delay in prohibition cases is that the federal courts are called on to handle hundreds of cases that ought to be tried in the police courts. The result is a clogged calendar and interminable delay."

McConnell case was that the Philadelphia federal court expected to get it yet this fall. I haven't heard what the prospects are in the Hart case."

Some Convictions.  
Records in the department of justice show that to date five former prohibition officials have been indicted and sentenced in prohibition cases. They are:

Thomas Delaney—former prohibition director for Wisconsin, sentenced to two years in prison and fined \$10,000.

Joseph P. O'Neill—former inspector in Delaney's office, one year in prison and \$2,000 fine.

Joseph Custer—former deputy revenue collector for Milwaukee, fined \$4,500.

Robert L. Crinnian—former prohibition director in Detroit, three years in prison.

The first four, along with 20 others not federal agents, were convicted following an inquiry into a conspiracy for the illegal withdrawal and sale of liquor in Milwaukee. Crinnian was found guilty of having accepted a bribe to release liquor.

Records in the department of justice show that to date five former prohibition officials have been indicted and sentenced in prohibition cases. They are:

Thomas Delaney—former prohibition director for Wisconsin, sentenced to two years in prison and fined \$10,000.

### WELCOME RUFFLES

Ruffles are back again—exactly where they should be—on youthful fashions. Stiff, quaint organdie ruffles, perky taffeta ruffles, soft sheer georgette ruffles, whichever you like and then use rows and rows of them.

The sleeve, if there is any, should be ruffled, the skirt, if it is paneled, should be ruffled—then the whole effect is delightfully feminine. These styles are very becoming to a slight figure, transforming the straight style into curves.

The Harbinger put into Perth Amboy a year ago last April with what is alleged to have been \$250,000 worth of liquor on board. The men said it was running from Halifax to Norfolk.

Eight was originally indicted in the case but charges against the others were dismissed.
